

Portion: Tazria-Metzora
(Shall Conceive - Leprous One)
Wayyiqra (Leviticus 13:24-59)

Leviticus 13:24-59

24 Or when the body receives a burn on its skin by fire, and the raw flesh of the burn shall become a bright spot, reddish-white or white,"

25 then the priest shall look at it and see, if the hair of the bright spot has turned white, and it appears deeper than the skin, it is leprosy broken out in the burn. And the priest shall pronounce him unclean, it is a leprosy infection.

26 "But if the priest looks at it and sees there are no white hairs in the bright spot, and it is not deeper than the skin, but has faded, then the priest shall shut him up seven days.

27 "And the priest shall look at him on the seventh day. If it spreads further over the skin, then the priest shall pronounce him unclean, it is a leprosy infection.

28 "But if the bright spot stays in its place, and has not spread on the skin, but has faded, it is a swelling from the burn. And the priest shall pronounce him clean, for it is the scar from the burn.

29 And when a man, or a woman, has an infection on the head or in the beard,"

30 then the priest shall look at the infection and see, if it appears deeper than the skin, and there is thin yellow hair in it, then the priest shall pronounce him unclean, it is an eruption, a leprosy of the head or beard.

31 But when the priest looks at the infection of the eruption and sees that it does not appear deeper than the skin, and there is no black hair in it, then the priest shall shut up the one with the infection of the eruption seven days.

32 "And on the seventh day the priest shall look at the infection and see, if the eruption has not spread, and there is no yellow hair in it, and the eruption does not appear deeper than the skin,

33 "then he shall shave himself, but the eruption he does not shave. And the priest shall shut up the one with the eruption another seven days.

34 "And on the seventh day the priest shall look at the eruption and see, if the eruption has not spread over the skin, and does not appear deeper than the skin, then the priest shall pronounce him clean. And he shall wash his garments, and he shall be clean.

35 But if the eruption spreads further over the skin after his cleansing,"

36 then the priest shall look at him and see, if the eruption has spread over the skin, the priest need not seek for yellow hair, he is unclean.

37 "But if the eruption appears to have stayed, and there is black hair grown up in it, the eruption has healed. He is clean, and the priest shall pronounce him clean.

38 And when a man or a woman has bright spots on the skin of the body, white bright spots,"

39 then the priest shall look and see, if the bright spots on the skin of the body are dull white, it is a white spot that grows on the skin, he is clean.

40 "And when a man loses the hair of his head, he is bald, he is clean.

41 "And if the hair has fallen from his forehead, he is bald on the forehead, he is clean.

42 "And when there is on the bald head or bald forehead a reddish-white infection, it is leprosy breaking out on his bald head or his bald forehead.

43 And the priest shall look at it and see, if the swelling of the infection is reddish-white on his bald head or on his bald forehead, as the appearance of leprosy on the skin of the body,"

44 he is a leprous man, he is unclean. The priest shall pronounce him unclean, without fail, his infection is on his head.

45 "As for the leper who has the infection, his garments are torn, and his head is uncovered, and he has to cover his upper lip and cry, 'Unclean! Unclean!'

46 "He is unclean - all the days he has the infection he is unclean. He is unclean, and he dwells alone, his dwelling place is outside the camp.

47 "And when a garment has an infection of leprosy in it, in a woollen garment or in a linen garment,

48 or in the warp or in the weft of linen or wool, or in leather or in any leather-work,

49 and the infection shall be greenish or reddish in the garment or in the leather, or in the warp or in the weft, or in any leather object, it is an infection of leprosy and shall be shown to the priest.

50 "And the priest shall look at the infection and shut up the infected seven days.

51 "And he shall look at the infection on the seventh day. And when the infection has spread in the garment, or in the warp or in the weft, or in the leather or any leather-work, the infection is an active leprosy, it is unclean.

52 "And he shall burn that garment, or the warp or the weft, in wool or in linen, or any leather object in which the infection is, for it is an active leprosy. It is burned with fire.

53 "But if the priest looks and sees that the infection has not spread in the garment, or in the warp or in the weft, or in any leather object,

54 then the priest shall give command, and they shall wash that in which the infection is. And he shall shut it up another seven days.

55 "And the priest shall look at the infection after it has been washed and see, if the infection has not changed its appearance, though the infection has not spread, it is unclean, and burn it in the fire - it is eaten away, in its inside or outside.

56 "And if the priest shall look and see that the infection has faded after washing it, then he shall tear it out of the garment, or out of the warp, or out of the weft, or out of the leather.

57 "And if it is still seen in the garment, or in the warp or in the weft, or in any leather object, it is a spreading infection. Burn it with fire, that in which the infection is.

58 "And if you wash the garment, or the warp or the weft, or any leather object, if the infection has disappeared from it, then it shall be washed a second time, and shall be clean.

59 This is the Torah of the infection of leprosy in a garment of wool or linen, or in the warp or in the weft, or in any leather object, to pronounce it clean or to pronounce it unclean." "
