

Portion: Terumah (Offering)
Shemoth (Exodus 27:4-19)
Melakim Aleph (1 Kings 5:12-6:10)

Exodus 27:4-19

- 4 "And you shall make a grating for it, a bronze network, and shall make on the network four bronze rings at its four corners,
5 and shall put it under the rim of the slaughter-place beneath, so that the network is halfway up the slaughter-place.
6 "And you shall make poles for the slaughter-place, poles of acacia wood, and shall overlay them with bronze.
7 "And the poles shall be put in the rings, and the poles shall be on the two sides of the slaughter-place for lifting it.
8 "Make it hollow with boards. As it was shown to you on the mountain, so they are to make it.
9 "And you shall make the courtyard of the Dwelling Place: for the south side screens for the courtyard made of fine woven linen, one hundred cubits long for one side,
10 and its twenty columns and their twenty sockets of bronze, the hooks of the columns and their bands of silver,
11 "and so for the north side in length, screens one hundred cubits long, with its twenty columns and their twenty sockets of bronze, and the hooks of the columns and their bands of silver.
12 "And the width of the courtyard on the west side screens of fifty cubits, with their ten columns and their ten sockets.
13 "And the width of the courtyard on the east side fifty cubits.
14 "And the screens on one side of the gate fifteen cubits, with their three columns and their three sockets.
15 "And on the other side screens of fifteen cubits, with their three columns and their three sockets.
16 And for the gate of the courtyard a covering twenty cubits long, of blue and purple and scarlet material, and fine woven linen, made by a weaver - four columns and four sockets.
17 "All the columns around the courtyard have bands of silver, their hooks silver and their sockets bronze.
18 "The length of the courtyard is one hundred cubits, and the width fifty by fifty, and the height five cubits, woven of fine linen thread, and its sockets of bronze.
19 "All the utensils of the Dwelling Place for all its service, all its pegs, and all the pegs of the courtyard, are bronze.

1 Kings 5:12-18

12 And יהוה gave Shelomoh wisdom, as He promised him. And there was peace between Hiram and Shelomoh, and the two of them made a covenant.

13 And Sovereign Shelomoh raised up compulsory labour out of all Yisra'el. And the compulsory labour was thirty thousand men.

14 And he sent them to Lebanon, ten thousand per new moon by courses - they were one new moon in Lebanon, two new moons at home. And Adoniram was over the compulsory labour.

15 And Shelomoh had seventy thousand bearing burdens, and eighty thousand hewing stone in the mountains,

16 besides three thousand three hundred from the chiefs of Shelomoh's deputies who were over the work, those ruling over the people who laboured in the work.

17 And the sovereign commanded, and they brought large stones, precious stones, to lay the foundation of the House with hewn stones.

18 And Shelomoh's builders, and Hiram's builders, and the men of Gebal did hew, and prepared timber and stones to build the House.

1 Kings 6:1-10

1 And it came to be, in the four hundred and eightieth year after the children of Yisra'el had come out of the land of Mitsrayim, in the fourth year of the reign of Shelomoh over Yisra'el, in the new moon of Ziw, which is the second new moon, that he began to build the House of יהוה.

2 And the house which Sovereign Shelomoh built for יהוה was sixty cubits long, and twenty wide, and thirty cubits high.

3 And the porch at the front of the Hēkal of the House was twenty cubits long, according to the breadth of the House, and its width ten cubits, from the front of the House.

4 And he made for the House windows with narrowed frames.

5 And against the wall of the House he built rooms all around, against the walls of the House, all around the Hēkal and the Speaking Place. Thus he made side rooms all around.

6 The lowest side room was five cubits wide, and the middle one was six cubits wide, and the third one was seven cubits wide; for he made narrow ledges around the outside of the House, so as not to lay hold on the walls of the House.

7 And the House, when it was being built, was built with finished stone made ready beforehand, so that no hammer or chisel or any iron tool was heard in the House while it was being built.

8 The doorway for the middle side room was on the right side of the House. And they went up by stairs to the middle side rooms, and from the middle to the third.

9 So he built the House and completed it, and he panelled the House with beams and boards of cedar.

10 And he built the side rooms of the structure against all the House, each five cubits high, and they were fastened to the House with cedar beams.

Fill In The Blank

- 1) And you shall make _____ for the slaughter-place, poles of acacia wood, and shall _____ them with bronze.
- 2) All the utensils of the Dwelling Place for all its _____, all its pegs, and all the pegs of the _____, are bronze.
- 3) The length of the courtyard is one _____ cubits, and the width fifty by fifty, and the height _____ cubits, woven of fine linen thread, and its sockets of bronze.
- 4) And _____ builders, and _____ builders, and the men of Gebal did hew, and prepared timber and stones to build the House.
- 5) And Sovereign Shelomoh raised up _____ labour out of all Yisra'el. And the _____ labour was thirty thousand men.
- 6) And Shelomoh had _____ thousand bearing burdens, and _____ thousand hewing stone in the mountains.
- 7) And he sent them to Lebanon, ten thousand per new moon by _____ - they were one new moon in Lebanon, two new moons at home. And _____ was over the compulsory labour.
- 8) And against the wall of the _____ he built rooms all around, against the walls of the House, all around the _____ and the Speaking Place. Thus he made side rooms all around.
- 9) And he built the side rooms of the _____ against all the House, each _____ cubits high, and they were fastened to the House with cedar beams.
- 10) And the House, when it was being built, was built with _____ stone made ready beforehand, so that no _____ or chisel or any iron tool was heard in the House while it was being built.

True Or False

- 1) The House of יהוה began to be built in the fifth year of Shelomoh's reign over Yisra'el True/False
- 2) Shelomoh had three thousand three hundred deputies watching over the people who laboured. True/False

Across

3. All the columns around the courtyard have bands of _____.
5. And the poles shall be put in the rings, and the poles shall be on the two sides of the slaughter-place for _____ it.
6. The porch at the front of the Hēkal of the House was _____ cubits long.
8. Shelomoh had seventy thousand bearing burdens, and eighty thousand _____ stone in the mountains.
9. And יהוה gave _____ wisdom, as He promised him.

Down

1. There was peace between Hiram and Shelomoh, and the two of them made a _____.
2. And the width of the courtyard on the east side _____ cubits.
4. The doorway for the middle side room was on the _____ side of the House.
7. And he made for the House _____ with narrowed frames.
9. The house which Sovereign Shelomoh built for יהוה was _____ cubits long.
